HG vinyl cleaner shine restorer (product 78)

- with nourishing properties

HG vinyl cleaner shine restorer is a freshly scented, concentrated and nourishing mopping cleaner with shine restorer, developed specially for regular cleaning of all types of artificial flooring such as vinyl, linoleum, marmoleum, PVC and resinfloors.

1 litre is sufficient for 20 washes.

Directions:

For regular cleaning:

Dissolve 50 ml (half a cup) in half a bucket (5L) of lukewarm water. For more intensive soiling, a stronger solution can be made of 100 ml (1 cup) of this product to half a bucket of water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

For intensive soiling or to remove the gloss coating of this product:

Use *HG vinyl cleaner extra strong (product 79)*, see also the HG artificial floor treating matrix on the side of this bottle.

Tip:

The floor can be lightly polished after cleaning, for extra shine.

Attention:

When cleaning a click system floor, do not make it too wet. If you clean too wet, the seams may swell up.
