wooden furniture cleaner

provides extra shine

HG wooden furniture cleaner

- provides extra shine
- dust, scratches and stains disappear
- nourishes wood with natural oils

HG wooden furniture cleaner cleans all solid wood or veneered wooden surfaces coated with lacquer, oil, paint, wax or stain, as well as synthetic surfaces very quickly and easily and imparts a beautiful gloss. **HG wooden furniture cleaner** also protects against stains and fingerprints. Surfaces coated with wax or oil are fed by the natural oils present in the product.

Directions for use: Shake well before use. Spray **HG wooden furniture cleaner** on the surface at a distance of approximately 20 cm and rub with a lint-free cloth. For smaller surfaces, the spray can be applied on the cloth first. Rub the surface a little longer for a stronger and deeper shine.

Attention: Store in a dry place to prevent rust formation on the can. Rust formation can impair the strength of the can. Should the can start to become rusty, we recommend handing it in to a waste-collection point. Do not apply the product on untreated wood or damaged
