HG bathroom cleaner shine restorer

- highly concentrated
- simply a sparkling and streak-free result
- does not contain scouring agents
- excellent as a mild cleaner or a floor cleaner

HG bathroom cleaner shine restorer is a detergent with a lovely fresh fragrance for the easy removal of soap residues, skin grease, light limescale and bath oil marks, and it gives an absolutely streak-free shine. This product contains no scouring agents or aggressive components and can therefore be safely used for all glaze, chrome, enamel, plastic and painted surfaces. *HG bathroom cleaner shine restorer* will last a long time and is also great for creating soapy water. Frequent use will prevent limescale formation.

Directions for use:

For cleaning with a sponge: Pour a few drops of *HG bathroom cleaner shine restorer* on a damp bath sponge and use the sponge to clean the surface. Apply a thin line of *HG bathroom cleaner shine restorer* immediately on extremely dirty rims in the bath tub or on an acrylic bath; clean the surface with the sponge after the soaking period and then rinse off.

As a mild cleaner or a floor cleaner: Pour a dash of *HG bathroom cleaner shine restorer* in a bucket or bowl with lukewarm water, and you have great soapy water that you can use to clean larger surfaces quickly and without streaks.

Attention: Transport and store the bottle upright. Do not use on marble or other limestone surfaces. For these surfaces use *HG natural stone bathroom cleaner*. For the removal of difficult to clean built-up stains, such as limescale, yellow stains, rust stains, etc., it is best to use *HG limescale remover concentrate*.
