## furniture restorer dark wood

restores rings  
and scratches

250 ml e

### HG furniture restorer for dark wood

- restores rings and scratches
- also restores bleached and aged surfaces

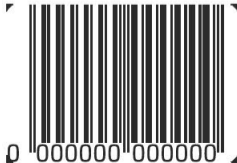

*HG furniture restorer for dark wood* is a high-quality maintenance product for stained, varnished, oiled, untreated or waxed furniture. White marks, water and alcohol rings disappear. Dull and bleached, faded surfaces regain their natural colours. Scratch marks are camouflaged.

**Directions for use:** *HG furniture restorer for dark wood* must always be tried on a small inconspicuous area first. Apply *HG furniture restorer for dark wood* liberally in straight lines in the direction of the wood grain and allow to penetrate for 6-10 hours. Treat areas where *HG furniture restorer for dark wood* has been fully absorbed during this period, again. At the end of the penetration period wipe away any remaining *HG furniture restorer for dark wood* with a clean cloth. Allow eight days before repeating treatment. If the area to be treated has been waxed then apply *HG furniture restorer for dark wood* liberally and remove loosened wax after 2 hours. Then treat as described above.

contains a.o.:

aliphatic hydrocarbons

**Attention:** Transport and store the bottle upright. If a layer of varnish has been damaged by moisture or heat, this will also look like a stain. However, those stains are not in the wood and cannot be restored by this product. Do not apply on polished, artificially bleached (limed) or pale furniture (for instance pine, ash, light and medium oak) or on brands of varnish that are waterproof. Local discolorations may occur because of hairline cracks in these lacquers. High-gloss lacquers may become slightly duller. Dark stains and rings will not be removed.
