HG laminate, vinyl and PVC cleaner (product 72)

- sufficient for mopping 20 times

HG laminate, vinyl and PVC cleaner is a freshly scented, concentrated mopping cleaner, for regular and effective, safe and quick, streak-free cleaning of all types of laminate floors. 1 litre is sufficient for mopping 20 times.

Directions for use:

For regular cleaning: Dissolve 50 ml (half a cup) in half a bucket (5 l) of lukewarm water. For more stubborn dirt, a stronger solution can be made of 100 ml (1 cup) of this product to half a bucket of water. Then clean the floor with a well wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

For very stubborn dirt: see the HG treatment matrix on the side of this bottle.

Caution: Never use too much water when cleaning the floor, as the seams may swell when wet. The streak-free result can be adversely affected by:

1. Adding too much product to the mopping water.
2. Mopping too wet.
3. Using extremely dirty mopping water.
4. Using different cleaning products in between. If that results in slight streaking, it can be removed easily in most cases by rubbing with a clean, dry cloth.
