### HG copper polish cloth

- easy to use large cloth
- also for brass and bronze

Maintain the lovely colour and shine of all your red or yellow copper objects by occasionally buffing them with the *HG copper polish cloth*. This specially impregnated cloth is made from a high-quality textile that "lightly" polishes even slightly oxidised copper effortlessly. Because it is extra large (30 x 30 cm) you can avoid touching the copper with your hands (finger prints on the copper cause accelerated oxidation) *HG copper polish cloth* is also highly suitable for brass and bronze.

**Instructions for use:** Buff the surface to be treated with the *HG copper polish cloth* until a shine appears. Oxidation which is more difficult to remove should be treated by dampening a point of the *HG copper polish cloth* and then buffing. The cloth maintains its powerful polishing action until it is completely worn, even when black.

**Attention:** *HG copper polish cloth* must not be washed. **P101-** If medical advice is needed, have product container or label at hand. **P102-** Keep out of reach of children. • Medical personnel can request the data sheet via +31 36 54 94 777 • The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)
