Safe and streak-free cleaning

Spotlessly clean result

Suitable for all types of natural stone

500 ml e

### HG natural stone worktop cleaner

- cleans without streaks and is completely safe
- for daily cleaning

*HG natural stone worktop cleaner* has been especially developed for the fast and safe daily cleaning of natural stone kitchen worktops. This product effectively removes fat and other grime and leaves a streak-free result, without rubbing. This special formula also enhances the texture so that your kitchen worktop's 'natural' properties are as good as new every day.

**Directions for use:** Turn the nozzle on the front side a quarter. Spray the surface to be cleaned with *HG natural stone worktop cleaner* and wipe the surface with a clean cloth (can be dampened). For stubborn, dried-in grime leave the product to penetrate for a few minutes (if necessary, use an a sponge to loosen the grime). For extra gloss, we recommended polishing the treated surface with a dry cloth or tea towel afterwards. Turn the nozzle a quarter after use (OFF).
