# Window cleaner concentrate

Powerful streak-free clean

For intensive and efficient use

Powerful professional formula

500 ml e

## HG window cleaner concentrate

- guaranteed streak-free windows
- concentrated formula
- sufficient for at least 12 washes

**HG window cleaner concentrate** is a product that cleans and degreases without streaks, but does not contain ammonia or spirits. **HG window cleaner concentrate** exceeds every professional requirement – this HG product has a neutral pH, which means it is safe for paint, lacquer and plastic and very mild to the skin.

**Directions for use:** Use 40 ml (approx. 3 tablespoons) of **HG window cleaner concentrate** in half a bucket of lukewarm water (approx. 5 litres). Change the water more frequently for particularly dirty windows. Leave it for a little while and then wipe it off with a sponge or a damp cloth. Wash your windows with circular movements for the best results. Use overlapping strokes when you dry your window with a squeegee. Dry the squeegee with a dry cloth before using it again. Never clean your windows in direct sunlight.

contains a.o.:

anionic surfactants	5-15%
---------------------	-------

preservation agents: Benzisothiazolinone, Met-hylisothiazolinone, 2-bromo-2-nitropropane-1,3-diol

**Attention: Transport and store the bottle upright.**  
Also suitable for outdoor use.
