

# HG power gel brush oven cleaner

- powerful, highly adhesive gel formula
- with a brush for precise and controlled application
- easy to use

With its powerful, highly adhesive gel formula, *HG power gel brush oven cleaner* thoroughly removes the most stubborn, caked-on grease and burnt bits. Including from vertical surfaces, such as the walls of the oven. The built-in brush head makes controlled and accurate application, including on difficult to reach places, extremely easy. Also extremely suitable for baking sheets, grills and barbecues.

**Attention:** Transport and store the bottle upright. Do not use this product on warm or varnished surfaces, aluminium, copper, bronze, cast iron, or the outside of the oven, grill or barbecue. Not suitable for appliances with a non-stick coating or a self-cleaning function. Before use, check the instructions for your appliance first. Prevent the gel from running onto sensitive surfaces, such as plastic, wood, composite, etc. Should this happen accidentally, clean immediately with plenty of water.

**Directions:** see inside
