HG stainless steel protector

• produces extra shine

HG stainless steel protector **is a ready-to-use maintenance and protective agent for stainless steel surfaces. This product is very simple to apply and gives a streak free shine that lasts for weeks. It's ideal for use in the kitchen on cooker hoods, fireplaces, hobs, rear walls and panels etc.**

Directions for use: Apply a few drops of *HG stainless steel protector* to a dry, lint-free cloth and apply to the surface evenly. If necessary, leave to dry for 2 minutes and polish lightly again with a soft, dry cloth. If the surface is very greasy or dirty, then we recommend cleaning with *HG grease away* first.

Attention: Transport and store the bottle upright.
P101- If medical advice is needed, have product container or label at hand. **P102-** Keep out of reach of children. • Medical personnel can request the data sheet via +31 36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
