HG odour eliminator extremely powerful for cats

- removes the source of the odour once and for all
- works within 30 minutes
- based on natural enzymes and microbes
- 100% organic, so not harmful to cats, people, or our planet

HG odour eliminator extremely powerful for cats has been developed specifically to remove unpleasant smells from cat beds and baskets, chairs, sofas, the carpet, curtains, and even porous tiles or grout. This extremely strong product does not mask but removes the source of the smell in a 100% organic way by using natural enzymes and microbes. It removes odours caused by the coat, urine, faeces, or vomit.

Caution: Transport and store the bottle upright. Protect from frost. Remove any remaining vomit, faeces, or urine with some kitchen roll. First test carpets and/or rugs for colourfastness in an inconspicuous place. If it is difficult for the product to come close to the "odour source", for example in the seat of an armchair or settee, this may reduce its effectiveness. Leave to absorb longer depending on the type of surface. Do not use on food or drink.
