odour eliminator for all surfaces

removes the
source of the
odour once
and for all

500 ml e

HG odour eliminator for all surfaces

- removes the source of the odour once and for all
- works within 30 minutes

HG odour eliminator for all surfaces has been specially developed to remove unpleasant smells biologically. Does not mask the smell but removes it at source by means of natural enzymes and microbes. Amongst other things, it removes smells caused by urine, excrement, vomit, pets, nicotine, fruit, vegetables and many other sources.

Directions for use: First remove any remains (e.g. where someone has been sick, clean vomit, in the case of a smelly rubbish bin, first empty it).

1. Turn the nozzle on the front side a quarter.
2. Spray *HG odour eliminator for all surfaces* liberally on the surface to be cleaned. It is important that the product be sprayed on the source of the smell to remove the bad smell completely.

3. Depending on the porosity, the source of the smell will disappear between 30 minutes and a few hours. On non-porous surfaces, this will be 30 minutes. On extremely porous surfaces this will be a few hours.
4. The smell will have disappeared when the treated surface is dry. Repeat if necessary.
5. Turn the nozzle a quarter after use (OFF).

Attention: Transport and store the bottle upright. Before use on carpets and rugs, test for colour-fastness on an inconspicuous area. Do not use on food or drink. Keep in a frost-free area. If it is difficult for the product to come close to the "odour source", for example in the seat of an armchair or settee, this may reduce its effectiveness. **P101-** If medical advice is needed, have product container or label at hand. **P102-** Keep out of reach of children.
