Natural stone bathroom cleaner

Safe and effective formula

Restores natural shine

Powerful, without damaging surfaces

500 ml e

HG natural stone bathroom cleaner

- highly concentrated
- works safely and effectively

HG natural stone bathroom cleaner is a highly concentrated cleaner for the safe and regular cleaning of marble and all other calciferous natural stone surfaces. This product effectively removes stubborn dirt such as soap residue, body fats and light deposits of limescale.

Directions:

For walls: Apply a few drops of this product to a damp (bathroom) sponge and clean the surface, then rinse or wipe off with a damp cloth.

For floors: Dissolve 50 ml (half a cup) in half a bucket (5L) of lukewarm water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

Attention: Transport and store the bottle upright.

Medical personnel can request the data sheet via +31 36 54 94 777.
