active oxygen

500 ml e

HG laundry pre-treat stain remover gel extra strong

- enhanced with active oxygen
- for washing by hand and in the machine
- removes even the worst stains

HG laundry pre-treat stain remover gel extra strong has been enhanced with active oxygen, which means it can remove even the most persistent stains, such as red wine, tea, fruit juice, chocolate, gravy, spinach, grass, soil, etc. This special formula is suitable for almost all types of fabric.

Directions for use:

1. Pull up the cap.
2. Test coloured fabric for colour-fastness (see attention).
3. Liberally apply the product on the marks and stains, until they are completely covered.
4. Rub the product into the marks and stains.
5. Leave the product to work for a maximum of 5 minutes (do not let the gel dry).
6. Wash the treated laundry immediately in the washing machine on a main cycle and add detergent.
7. If you wash by hand, add detergent to the water.
8. Wash your hands immediately after use or wear household gloves.

Attention: Transport and store the bottle upright. Do not use on wool, silk or other delicate fabrics. If in doubt, use *HG laundry pre-treat stain remover gel*. Only use *HG laundry pre-treat stain remover gel extra strong* on colour-fast fabrics. If in doubt, check each individual colour for colour-fastness in an inconspicuous place, for example the inside of a hem. Do so by leaving the product to work for a few minutes, rinse it with water, and leave the fabric to dry.
