

HG stain away 7 - Directions for use: Test a small inconspicuous part of the material before hand to check that it is colour-fast. Dampen the stain well with the product and allow it to work in for 1-2 hours, although do not allow to dry. Then clean thoroughly with hot water and a brush. Repeat the procedure if necessary and allow to work in for longer. Place small stains on an absorbent whitesurface, e.g. a white tissue, and dab up with a cloth dampened with the product. Then rinse off well with hot water. In the bathtub and on tiles: place a cloth drenched in the product on the stain and allow some time for it to work in. Then clean thoroughly with hot water and a brush. Repeat the procedure if necessary. Take care with coloured bathtubs, wash basins, etc. as colour change is possible. Do not use on marble and other not acid-resistant material. Store at room temperature. Not suitable for silk. • Medical personnel can request the data sheet via +31 36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
