COPPER CLEANER

also for brass
and bronze

500 ml e

HG copper cleaner

- also for brass and bronze
- ideal for large and/or difficult to polish objects
- odourless
- does not scratch
- based on natural materials

Cleaning large objects, such as umbrella boxes etc. and copper objects with difficult to reach places is a long, boring job. But now no longer with *HG copper cleaner*. Apply a little *HG copper cleaner* to a sponge and rub over the object to remove the dirt in no time.

Instructions for use:

Shake the bottle well before use. Apply a little *HG copper cleaner* to a damp sponge. Then lather the surface thoroughly and rinse off with cold water. Next, carefully dry the cleaned surface. Then rub the surface lightly with a soft, lint-free cloth, preferably *HG copper polish cloth*. After this, the resulting shine can be maintained for a long period with *HG silver and copper protector*. For exceptionally dark or dulled copper, we recommend *HG copper polish*. For regular maintenance you can then apply *HG copper cleaner*.

Attention: Transport and store the bottle upright. If necessary, remove protective surface layers such as *HG silver and copper protector* beforehand with acetone.
