### HG litter tray deodoriser

- makes frequent changing not necessary
- absolutely odourless
- 100% organic, so not harmful to cats, people, or our planet

Even after just one single use of your cat, the cat-litter tray can start to smell because cat urine has an extremely penetrating smell. You want to get rid of that of course, but changing the cat-litter tray every day is a lot of work and expensive too. *HG litter tray deodoriser* is the solution! In contrast to other cat-litter tray deodorisers, this product does not mask the odour but effectively breaks down the odour molecule in the cat urine. The cat-litter tray smells fresh, with the benefit of not having to change it so often and saving on cat litter.

**Caution:** Transport and store the bottle upright. Protect from frost. The product will start to work as soon as the cat uses the tray. If the cat-litter tray starts to smell anyway after a period of time, simply spray *HG litter tray deodoriser* again!

Medical personnel can request the data sheet via +31 36 54 94 777

The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)

Turn nozzle a quarter turn and spray.

Shovel the cat litter well.
