

# HG stainless steel protector

- produces extra shine

*HG stainless steel protector* is a ready-to-use maintenance and protective agent for stainless steel surfaces. This product is very simple to apply and gives a streak free shine that lasts for weeks. It's ideal for use in the kitchen on cooker hoods, fireplaces, hobs, rear walls and panels etc.

**Directions for use:** Apply a few drops of *HG stainless steel protector* to a dry, lint-free cloth and apply to the surface evenly. If necessary, leave to dry for 2 minutes and polish lightly again with a soft, dry cloth. If the surface is very greasy or dirty, then we recommend cleaning with *HG grease* away first.

**Attention:** Transport and store the bottle upright.

Medical personnel can request the data sheet via +31 36 54 94 777

The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)
