Shower screen protector

Limescale and dirt repellent

Shower stays clean and shiny for longer

250 ml e

HG shower screen protector

- suitable for all types of materials
- extremely easy to apply

HG shower screen protector protects all materials in and on the shower cubicle against limescale and dirt from soap residues, shower gel, skin oils, etc. This product makes the glass in the shower door/enclosure, the frame, tiles and taps water and dirt resistant, and so ensures that all these materials remain clean and look beautiful much longer. The shower will need to be cleaned less frequently, and cleaning will be much easier. *HG shower screen protector* is very easy to use and works for months very effectively.

Directions for use: First, thoroughly clean the surfaces to be treated, like tiles, (plexi)glass, chrome, plastic, aluminium and ceramics, and leave to dry. Then apply a small amount of *HG shower screen protector* to a clean, dry cloth and rub in using overlapping circles. After about 2 minutes, repeat the treatment. Then polish with a clean, dry cloth. For glass surfaces, use a damp cloth and rub to a shine. When using *HG shower screen protector*, the shower will need to be cleaned less frequently, and cleaning will be much easier. Under normal use of your shower cubicle or shower, it will be sufficient to use *HG shower screen protector* once every 3 months.
