LAUNDRY ROOM

pre-treat stain remover gel

suitable for
delicate fabrics

500 ml e

HG laundry pre-treat stain remover gel

- suitable for delicate fabrics
- 'immediately active' formula
- for washing by hand and in the machine
- without fragrance or bleach

HG laundry pre-treat stain remover gel is an 'immediately active' formula, which makes it suitable for more delicate fabrics. After spraying the stain, the product loosens the stain from the fabric, which means the detergent will make your laundry spotlessly clean. Greasy collars, grease stains, make-up stains etc. are removed effortlessly in your main cycle.

Directions for use:

1. Pull the cap up.
2. Spray sufficient product on the stains and marks until they are completely covered.
3. Rub the product into the stains and marks.
4. Leave the product to work for a few minutes. Don't let it dry!
5. Wash the treated laundry immediately in the washing machine on the main cycle and add your normal detergent.
6. When you wash by hand, add the detergent to the water.

Attention: Transport and store the bottle upright. Only use this product on colour-fast fabrics. In case of doubt, check the fabric for colour-fastness in an inconspicuous place, for example the inside of a hem. Leave the product to work for a few minutes, rinse it with water, and then leave it to dry. Keep in a frost-free area.
