## Mould preventor

Strong barrier against mould

Prevents mould formation\*

For all smooth and matt surfaces

### HG mould preventor

- prevents mould formation
- for tile grouts and silicon joints, plasterwork, etc.

**HG mould preventor effectively seals surfaces from moisture and humidity to prevent mould growth. This handy spray is suitable for protecting both shiny and matte surfaces.**

**Directions:** If there is already mould on the surface, remove it with *HG mould preventor* first.

Clean and dry the surface properly before using *HG mould preventor*. Then cover with the liquid and leave to dry for approx. 30-60 minutes. On smooth surfaces, rub within 10 minutes of applying the liquid. Repeat the treatment 1x every 2 months. One bottle of 500 ml is sufficient for 10-12 m<sup>2</sup>.

**Attention: Transport and store the bottle upright.** Not suitable for use on wallpaper and on porous surfaces. Caution when used on floor joints: this product makes the treated surface smoother.

Medical personnel can request the data sheet via +31 36 54 94 777

The consumer's information sheet can be obtained via [www.HG.eu](http://www.HG.eu)

*\*Based on in-house laboratory tests.*
