Natural stone worktop cleaner

Safe and streak-free cleaning

Spotlessly clean result

Suitable for all types of natural stone

500 ml e

HG natural stone worktop cleaner

- cleans without streaks and is completely safe
- for daily cleaning

HG natural stone worktop cleaner has been especially developed for the fast and safe daily cleaning of natural stone kitchen worktops. This product effectively removes fat and other grime and leaves a streak-free result, without rubbing. This special formula also enhances the texture so that your kitchen worktop's 'natural' properties are as good as new every day.

Directions for use: Turn the nozzle on the front side a quarter. Spray the surface to be cleaned with *HG natural stone worktop cleaner* and wipe the surface with a clean cloth (can be dampened). For stubborn, dried-in grime leave the product to penetrate for a few minutes (if necessary, use an a sponge to loosen the grime). For extra gloss, we recommended polishing the treated surface with a dry cloth or tea towel afterwards. Turn the nozzle a quarter after use (OFF).

TIP: This product is also suitable for concrete worktops.

Attention: Transport and store the bottle upright. Do not spray directly onto foods. Do not use scouring agents on your kitchen worktop as that could leave mat and tarnished areas.
