

HG stain away 1 - This product is also suitable for stains caused by tea, cocoa, ketchup, fruit, mustard, jam, curry, vegetables and fruit juice, urine, perspiration and various perfumes. Directions for use: For coloured laundry, use an inconspicuous place to check first that the fabric is colour-fast (see attention). Put the content of this bottle on the stains until they have been covered completely and leave the product to work for maximum 5 minutes (make sure it doesn't dry out completely). Then rinse properly with lukewarm water and wash in the washing machine. Wash hands thoroughly after handling. **Attention:** Do not use HG stain away 1 on wool, silk or other delicate fabrics. This product is only suitable for colour-fast fabrics. In case of doubt, check the colours are colour-fast on the inside of a hem for example. You can check this by applying a small amount of product, leaving it to work for a few minutes, rinsing it and then leaving the fabric to dry. Avoid direct contact with metal elements (zips, buttons) or rust stains. Keep in a frost-free area. • Medical personnel can request the data sheet via +31 36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu
